

```
async function f_risky( params )
{
    let x1 = yield api1();
    let x2 = yield api2();
    return some_compute( x1, x2 );
}
```

```
async function f_safer( params )
{
    atomic {
        let x1 = yield api1();
        let x2 = yield api2();
    }
    return some_compute( x1, x2 );
}
```
