

```
async function f_risky( params )  
{  
    let x1 = await api1();  
    let x2 = await api2();  
    return some_compute( x1, x2 );  
}
```

```
async function f_safer( params )  
{  
    atomic {  
        let x1 = await api1();  
        let x2 = await api2();  
    }  
    return some_compute( x1, x2 );  
}
```
